

# French bleed

by **VICTOR Floors™**  
Floors for living, live in style

## Series

French Bleed laminate flooring offers a unique **one-of-a-kind texture** and **sophisticated look**. French Bleed floors have blackened edges to highlight a contrast between the color of the floor and the bevel edge to outline each plank.

**French Bleed** flooring has the look of an elegant and rustic floor with a visible beauty. Imagine...in old days hardwood floors were not as fancy as today. They used to have one solid color and with time the color would wear through displaying a variety of shades and leaving the bevel darker than the rest of the floor.
