PREMIUM LAMINATED FLOORING

Random Width

The **3in1** Design

“Designed & Manufactured in North America”
with **Refined Wood Texture**

Size of the Planks

Urban Classic is the latest Trend in flooring today which gives a finest natural look. When thing in life are just same always & boring, then starts something different, so does the Urban collection. Its random width design impression gives a visual antique look. With **wide & narrow width planks** gives each room a special charm, & the best characteristics of this floor is the Refined Wood Texture on the surface of each plank, **gives natural beauty of the Genuine Wood floor**. The V-Groove also creates the cosy look of a real solid wood floor.

It also has the advantage of calling a Water Resistant wood floor because of the **AquaSEAL Protect** the floor boars edges, which gives you extra protection to a longer durability & life to the floor.
